Registration and Title Bulletin #49-00

To: All County Tax Assessor-Collectors

Subject: Laser Printed Titles

PURPOSE

To provide information regarding the new laser printed titles.

DETAILS

We are proud to announce the laser printing of the Texas Certificates of Title. The dot matrix and impact printers once utilized for the printing of titles have been replaced with laser printers. The Information Systems Division (ISD) began the laser printing of titles on February 1, 2000. The laser printers provide a higher print quality than the print produced by the dot matrix and impact printers. As a result of the enhanced print, the titles are easier to read. A photocopy of a laser printed title is attached for your reference.
